Pearson Education (US), United States, 2012. Paperback. Condition: New. Language: English . This book usually ship within 10-15 business days and we will endeavor to dispatch orders quicker than this where possible. Brand New Book. Can you remember the world before the iPod? How about the world before chunky tomato sauce or brown mustard? Many of these products came about not through focus groups and polling, but rather through research and development labs and marketers developing the products they knew customers would want, before customers knew they wanted them. Today your customers can actually help you create your next product. Rule Developing Experimentation (RDE) is a solution-oriented learning experience. RDE is the systematized process of designing, testing and modifying alternative ideas, packages, products, or services in a disciplined way so that the developer and marketer discover what appeals to the customer, even if the customer can't articulate the need, much less the solution. The book begins by presenting best practices in the RDE from some of today's top companies: HP, Prego, Vlasic, and Mastercard. It then goes on to examine RDEs use in innovation and design, and goes on to examine its possible uses in the international, political, bioinformatics, and finance areas. Filled with real-life stories, this book will change the way people think about selling to their present and future customers. Everyone thinks they need to break rules, but Moskowitz and Gofman skillfully show us how to develop and use the rules to define new perspectives and make better business decisions in virtually any field. An absolute must-read for any businessperson facing fierce competition! -Sean Bauld, Executive Vice President, Global Head of Marketing, Sales Trading, Reuters Over the last 15 years significant shareholder value has been destroyed by insightful and creative marketers resulting in the shocking statistic...
