## THE LIFE AND GROWTH OF LANGUAGE: AN OUTLINE OF LINGUISTIC SCIENCE (PAPERBACK)

DOWNLOAD

Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.From the Preface. The present work needs only a few words by way of introduction. That its subject calls for treatment in the series of which it forms a part, especially at this time, when men's crude and inconsistent views of language are tending to crystallize into shape, no labored argument is required to prove. Very discordant opinions as to the basis and superstructure of linguistic philosophy are vying for the favor, not of the public only, but even of scholars, already deeply versed in the facts of language-history, but uncertain and comparatively careless of how these shall be coordinated and explained. Physical science on the one side, and psychology on the other, are striving to take possession of linguistic science, which in truth belongs to neither. The doctrines taught in this volume are of the class of those which have long been widely prevalent among students of man and his institutions; and they only need to be exhibited as amended and supported, not crowded out or overthrown, by the abundant new knowledge which the century has yielded, in order to win an acceptance well-nigh universal. They who hold them have been too much overborne hitherto by the ill-founded claims of men who arrogate a special scientific or philosophic profundity. After one has once gone over such a subject upon a carefully matured and systematic plan, as I did in my *Language and the Study of Language* (New York and London, 1867), it is not possible, when treating it again for the same public, to avoid following in the main the same course; and readers of the former work will not fail to observe many parallelisms between the two. Even a part...
