

New Educational Trends in Turkey (Paperback)

By Ünsal Umdu Topsakal

Trafford Publishing, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This book contains eight chapters that analyze and discuss different themes and topics about new educational trends in Turkey. Chapter 1 discusses the new methodological trends in higher education of Turkey. Several factors including the dynamism of internationalization having gained momentum with globalization, increasing demand on higher education, life-long learning routines, transnational student mobility, newer higher education providers, and increasing market-focused competition have affected not only the educational system in general but also institutions of higher education specifically. Chapter 2 presents STEM education, which is accepted as one of the biggest educational movements in the last decade. It is a multidisciplinary, holistic approach, which aims to train students integrally in science, technology, engineering, and mathematics disciplines. Chapter 3 introduces the socioscientific issues (SSI). Socioscientific issues are dilemmas about the environment, health, technology, and science and associated with both society and science, concerning both moral and ethical issues. Chapter 4 focuses on model-based science education: the case of Turkey. Models have crucial roles in the practice of science. In this chapter, it is given that models and modeling in science education, mental models,...
