WordFire Press, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Accused of being a terrorist, a fugitive physicist takes flight in a gritty future world where the government has gone insane. Rob MacAulay has followed the flight of seabirds all his life, as well as the elusive nature of quantum field theory. He is a brilliant physicist, famed for solving the Unity Theory, a tall, gentle man with glasses and a tweed jacket. And he is framed as a terrorist. Now, on the run from the police and under the steamroller of politics, MacAulay is on a flight of his own. As the EU fractures around him, MacAulay learns that his scientific reputation means little when the world is out to get him. Thomas Heddiman, technical consultant with the police, finds himself both running with the fox and hunting with the hounds as he pursues MacAulay. But the tall, gentle physicist is an odd bird.and capturing him doesn't go as planned. Award winning author R.A. MacAvoy (Tea with the Black Dragon, The Book of Kells) joins with artist and storyteller Nancy Palmer to present a tale of the possible future: human anger, human compassion, and a man who turns out to be a very unusual bird indeed.
