Lauded Star Wars author James Luceno returns to pen an intense tale of ambition and betrayal that sets the stage for *Rogue One: A Star Wars Story*. War is tearing the galaxy apart. For years the Republic and the Separatists have battled across the stars, each building more and more deadly technology in an attempt to win the war. As a member of Chancellor Palpatines top secret Death Star project, Orson Krennic is determined to develop a superweapon before the Republics enemies can. And an old friend of Krennics, the brilliant scientist Galen Erso, could be the key. Galens energy-focused research has captured the attention of both Krennic and his foes, making the scientist a crucial pawn in the galactic conflict. But after Krennic rescues Galen, his wife, Lyra, and their young daughter, Jyn, from Separatist kidnapers, the Erso family is deeply in Krennics debt. Krennic then offers Galen an extraordinary opportunity: to continue his scientific studies with every resource put utterly at his disposal. While Galen and Lyra believe that his energy research will be used purely in altruistic ways, Krennic has other plans that will finally make the Death Star a reality. Trapped in their benefactors tightening grasp, the Ersos must untangle Krennics web of deception to save themselves and the galaxy itself. This item ships from multiple locations.
