

## Electronic Authentication Guideline: Recommendations of the National Institute of Standards and Technology (Special Publication 800-63-1)

By Elaine M. Newton

Createspace. Paperback. Condition: New. This item is printed on demand. 122 pages. Dimensions: 11.0in. x 8.5in. x 0.3in. The National Institute of Standards and Technology Special Publication 800-63-1, Electronic Authentication Guidelines recommendation provides technical guidelines for Federal agencies implementing electronic authentication and is not intended to constrict the development or use of standards outside of this purpose. This publication supersedes NIST SP 800-63. The recommendation covers remote authentication of users (such as employees, contractors, or private individuals) interacting with government IT systems over open networks. It defines technical requirements for each of four levels of assurance in the areas of identity proofing, registration, tokens, management processes, authentication protocols and related assertions. This item ships from La Vergne, TN. Paperback.

### Reviews

*An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.*

-- Prof. Arlie Bogan

*It in a single of the best book. This is for those who statte there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- Dr. Barney Robel Jr.
