Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from *Engineering for Architects* Can be solved with the aid of simple mathematics and a handbook, published by a steel manufacturing company. It is the case, however, that for a certain problem the method of attack is unknown, and the architect is forced to go to an engineer or else risk failure of his structure. In some cases unnecessary cost is incurred through lack of knowledge of the supporting strength of structural members, and the need of such knowledge is felt. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
