Reviews

Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Lupe Connelly)

FINE WOODWORKING VIDEO WORKSHOP SERIES - LIMBERT-INSPIRED COFFEE TABLE

Taunton Press, United States, 2016. DVD video. Condition: New. Language: English . Brand New Book. Arts and Crafts style in a contemporary table. Table 153, produced around 1910 by the Charles P. Limbert Furniture Co., of Holland, Michigan, was an Arts and Crafts standout. Now expert Kevin Rodel updates it as a stunning coffee table, with prominent exposed joinery, including tusk tenons and corbels. The Rodel coffee table embodies a number of elements that distinguish original Arts and Crafts furniture, including: Solid wood construction throughout in quartersawn white oak Prominent exposed joinery, including tusk tenons and corbels Pure lines, flat planes and a solid stance Grids and cutouts define a practical piece. The cutouts and gridwork - highlights of the design - look complex but are fun to make and not at all difficult under Kevin s expert instruction. Highlights of building the table include: Creating crisp cutouts in the end panels by ripping a board apart, cutting out some pieces, and gluing it back together Building a gridwork shelf by gluing up dozens of small cubical blocks Shaping and fitting long corbels that support the top and wedge the through-tenons, locking the shelf in place Cutting the double-dovetails that join the upper rails to the end panels Using templates to generate the tapered end panels and the clipped corners of the table top See how you can build this updated table - certain to be a featured piece of any home.
